Ayush Babu

Data & Project Analyst | Credit Analytics | Business Intelligence

+91 8601463624 · ayushbabu121004@gmail.com · linkedin.com/in/ayush231002 · Portfolio · Kanpur, India (Open to Relocate)

PROFESSIONAL SUMMARY

Data analyst with solid experience in SQL, Python, Power BI, and Excel — focused on turning messy datasets into decisions that actually matter. Good understanding of credit risk, portfolio analysis, and compliance-aware reporting. Comfortable presenting findings to non-technical stakeholders and contributing across finance and operations teams.

SKILLS

Analytics	Power BI (DAX, KPI Dashboards) · Advanced Excel (Pivot Tables, INDEX-MATCH, Macros)
Programming	Python (Pandas, NumPy) · SQL (Joins, Aggregations, Subqueries)
Business	Credit Risk Assessment · Portfolio Metrics · Compliance Reporting · Data Storytelling
Tools	AWS EC2 · Git · ETL & Data Cleaning

PROJECTS

Sales Data Analysis Dashboard — *2024*

Power BI · Python · Advanced Excel

- Built a Power BI dashboard processing 50,000+ records — gave stakeholders real-time visibility of KPIs and cut reporting cycle time by 40%
- Automated Excel workflows with Macros and INDEX-MATCH, reducing manual effort from 6 hours to 90 minutes per cycle
- Identified top revenue-driving customer segments via portfolio analysis, directly informing quarterly business decisions
- Applied structured ETL and data cleaning practices to maintain accuracy and compliance-ready reporting standards

Ride Operations Analytics — *2024*

Python (Pandas) · SQL

- Analysed 20,000+ operational records to surface cancellation drivers and quantify key inefficiencies across the workflow
- Produced a structured risk assessment report with data-backed recommendations — proposed improvements estimated at ~18% efficiency gain
- Presented findings as a clean stakeholder summary, translating technical output into clear business language for non-technical leadership

AWS Cloud Deployment — *2023*

AWS EC2 · Cloud Infrastructure

- Deployed a production web application on AWS EC2, configuring server infrastructure, security groups, and IAM access controls from scratch
- Implemented least-privilege access policies and firewall rules to ensure application stability and data security compliance

EDUCATION

MSc Data Science — *Pursuing · 2023 – Present*
Chandigarh University

BCA — Bachelor of Computer Applications — *Completed*
CSJM University, Kanpur
